

LIBRARY MANAGEMENT SYSTEM

ABSTRACT

This Project of Library Management System is developed for TRIZ Innovation Pvt Ltd. This project is basically for library management.

As most of library management system provides only physical resource management. But we have tried to give virtual and physical resource management both facility.

Library Management System includes adding,updating, and deleting of physical and virtual resources. We have facility for uploading data through csv so that directly without adding single resource we can add multiple resources.

Library Management System has facility of MARC and Z39.50 import which are the fastest and most acceptable import functionality by each e-library. It has membership creation and maintenance of membership functionality. It has bar code generator facility for each item and membership card generator facility.

Library Management System has member login available. Member can login and see particular resources. He can see any virtual resources which he has access. He can request for books available. He can create its own document using google docs and inbuilt editor system.

Library Management System is new generation system. It is made by focusing on future requirement of any library. This computer oriented world needs such kind of fast facility which we have tried to fulfill.

Library Management System is made on PHP and Apache MYSQL. We have tried our best to fulfill all requirements.

1. INTRODUCTION

1.1 Project Detail

This project is made for library. This project will help to library of various schools and colleges. This is made on PHP and MYSQL.

1.2 Purpose

Basic purpose of this system is to provide virtual and physical resource management. Also this system has implemented new purpose of online read materials which we have integrated with this system. System's main purpose is to provide wide online resources to user. It will also manage physical resources like books, CD, newspapers etc. It can manage issue, return, renew of various physical resources.

1.3 Scope

This project will help librarian(admin) and members of library. Admin can add, update and delete members. He can add, update and delete of various library resources. He can start circulation transaction of member. He can make budget of library for various items. Admin can upload virtual resources.

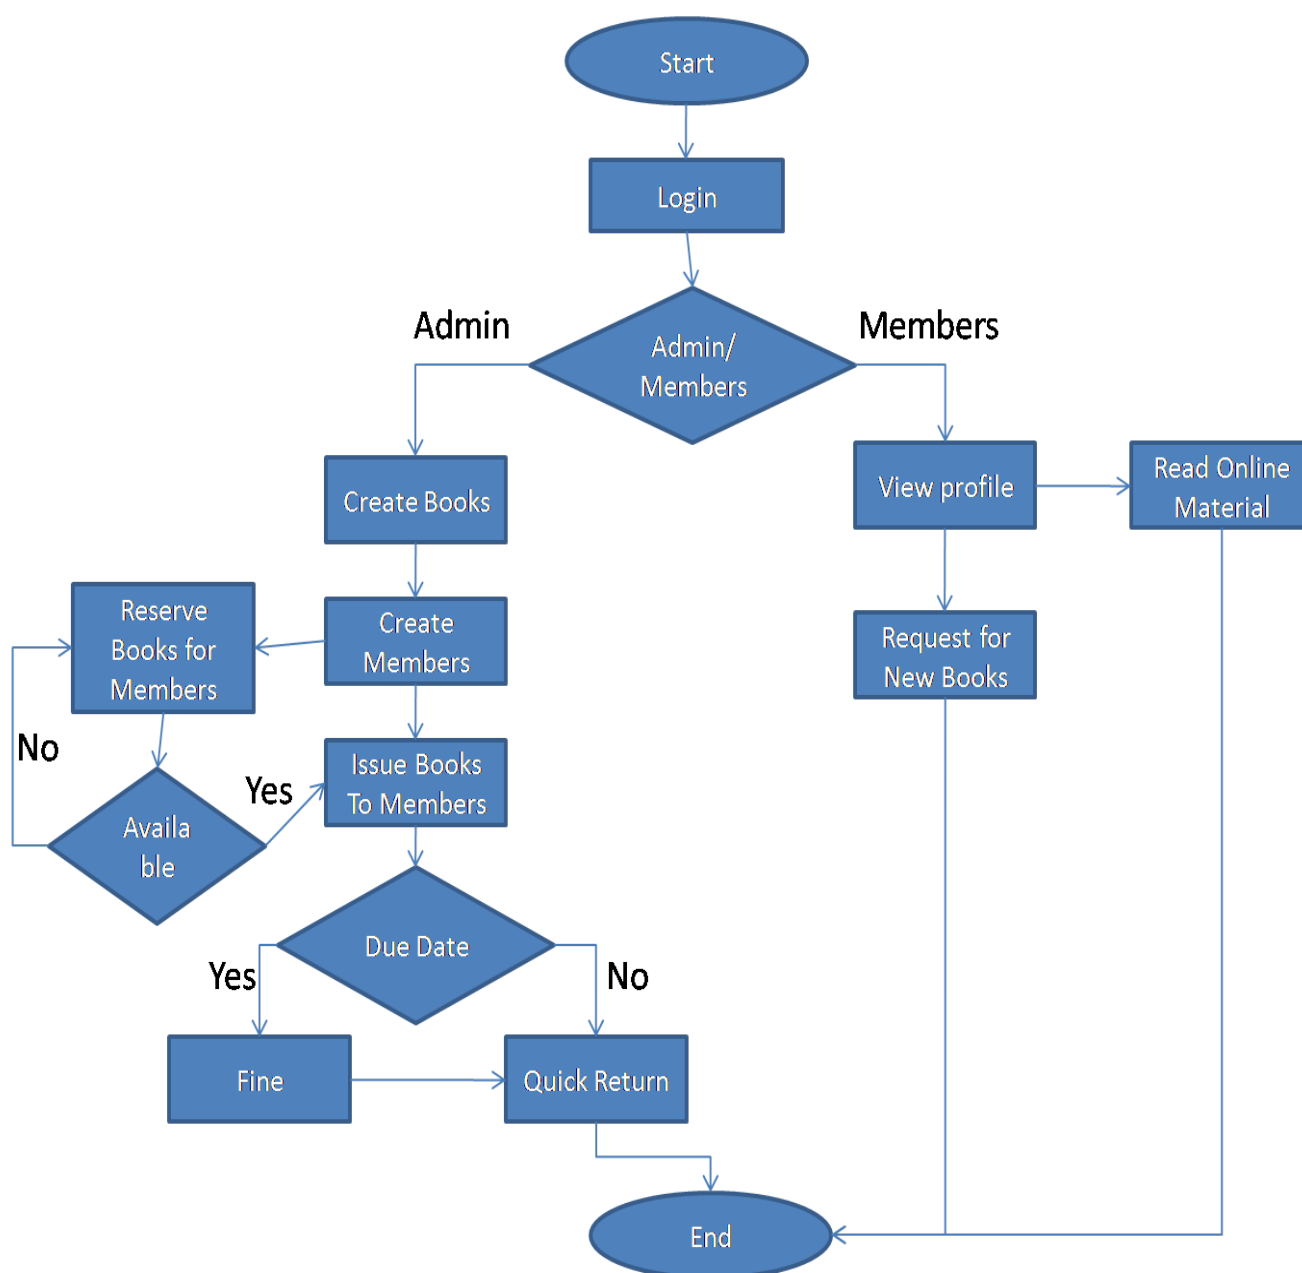

Member of this system can login into system. Search his required material. Make request for material which he want. We have provided document creation facility in our library for members. Member can create his document and manage it.

1.4 Objectives

1. To provide wide and rich level of resources.
2. To provide facility of reading material online.
3. To provide easily and fast search facility of materials for members.
4. To provide management of physical resources without manually record keeping.

2. INFORMATION FLOW

2.1 System Flow Diagram

3. DATABASE STRUCTURE

3.1 DB Schema

1. user :- This table is for system user.

user	
Field	Information
user_id	Id of created user
username	Username of user
realname	Real name of user
passwd	Password of user
last_login	Last login time and date
last_login_ip	Last login ip address
groups	User group info from user_group
input_date	input date
last_update	last updated date

2. user_group :-This table is for which type of user. It will create user groups.

user_group	
Field	Information
group_id	id of usergroup
group_name	name of group
input_date	input date
last_update	last updated

3. setting :- This table is for setting configuration of system.

setting	
Field	Information
setting_id	id of perticular setting properties
setting_name	name of setting properties

setting_value	value of setting
---------------	------------------

4. member :- This table will keep record of members.

member	
Field	Information
member_id	id of perticular member
member_name	name of member
gender	value of gender
birthdate	birthdate of member
member_type_id	member type id from mst_member_type
member_address	address of member
member_email	email address of member
postal_code	postal code of member
inst_name	name of institute
is_new	member is new or old
member_image	image of member
pin	pin code of member
member_phone	phone number of member
member fax	fax of member
member_since_date	date of membership started
register_date	date of registration
expire_date	date of expiration
member_notes	notes of member
is_pending	pending membership
mpassword	password of member
issue	any issued book or bebliography
checkin	any checkins
reserves	reserves any taken
last_login	last login date and time
last_login_ip	last login ip address
input_date	input date
last_update	last updated date

5. mst_member_type :- This table is for member type detail of members.

mst_member_type	
Field	Information
<u>member_type_id</u>	id of member type
member_type_name	member type name
loan_limit	limit of loan
loan_period	period of loan
enable_reserve	reserve is enabled or disabled
reserve_limit	reserve limit
member_period	membership period
reborrow_limit	reborrow limit
fine_each_day	fine each day
grace period	grace period given for any member
issue	any issue set
checkin	any checkin set
reserve	any reserve set
input_date	date of input
last_update	last updation made

6. mst_material_resource_type :- This table will include details of material resource type.

mst_material_resource_type	
Field	Information
<u>material_resource_id</u>	id of material resource
material_resource_name	name of material resources
active_inactive	active or inactive perticular material
input_date	date of input
last_update	last updated date

7. mst_gmd :- This table will include child type material of material_resource_type.

mst_gmd	
Field	Information
<u>gmd_id</u>	id of gmd
gmd_code	id from <u>mst_material_resources_type</u>
gmd_name	name of gmd
active_inactive	activated or inactivated
icon_image	icon image of perticular gmd
input_date	date of input
last_update	last updated date

8. mst_material_sub_type :- This table will include child type material of mst_gmd.

mst_material_sub_type	
Field	Information
<u>material_sub_id</u>	id of sub material of material resource
gmd_id	id of material resources from <u>mst_gmd</u>
material_sub_name	name of sub material
input_date	date of input
last_update	last updated date

9. mst_author :- This table will include author details.

mst_author	
Field	Information
<u>author_id</u>	id of perticular author
author_name	name of perticular author
author_type	type of author
auth_list	list of author
input_date	date of input
last_update	last updated date

10. mst_coll_type :- This table will define collection type of particular resources.

mst_coll_type	
Field	Information
coll_type_id	id of collection type
coll_type_name	name of collection type
input_date	date of input
last_update	last updated date

11. mst_frequency :- This table will include frequency of particular material publish.

mst_frequency	
Field	Information
frequency_id	id of frequency
frequency	frequency name
language_prefix	language prefix or used
time_increment	like if quarterly so 1/3 such kind of flag set
time_unit	unit of time increment
input_date	date of input
last_update	last updated date

12. mst_item_status :- This will include item status of item of particular material.

mst_item_status	
Field	Information
item_status_id	id of status of items
item_status_name	name of status of item
rules	any rules set for item status
no_loan	set or not set
skip_stock_take	set or not set
input_date	date of input
last_update	last updated date

13. mst_label :- This will include which type of label in system.

mst_label	
Field	Information
label_id	id of label
label_name	name of label
label_desc	description of label
label_image	image of label
input_date	date of input
last_update	last updated date

14. mst_language :- This will include language of particular material.

mst_language	
Field	Information
language_id	id of language installed
language_name	name of language
input_date	date of input
last_update	last updated date

15. mst_loan_rule :- This table is for particular loan rules for member type.

mst_loan_rule	
Field	Information
loan_rule_id	id of loan rule
member_type_id	id of member type from mst_member_resource_type
coll_type_id	id of collection type coll_type_id
gmd_id	id of gmd from mst_gmd
loan_limit	limit of loan
loan_period	period of loan
reborrow_limit	reborrowing limit
fine_each_day	each day fine
grace_period	period of grace
input_date	date of input
last_update	last updated date

16. mst_location :- This will include location detail of materials where it has been put in library.

mst_location	
Field	Information
location_id	id of location
location_name	name of location
input_date	date of input
last_update	last updated date

17. mst_place :- This will include place detail of material.

mst_place	
Field	Information
place_id	id of place
place_name	name of place
input_date	date of input
last_update	last updated date

18. mst_publisher :- This will include publisher detail.

mst_publisher	
Field	Information
publisher_id	id of publisher
publisher_name	name of publisher
input_date	date of input
last_update	last updated date

19. mst_standard :- This table is for standard detail.

mst_standard	
Field	Information
standard_id	id of standard
standard_name	name of standard
input_date	date of input
last_update	last updated date

20. mst_topic :- This will include topic detail of subject.

mst_topic	
Field	Information
topic_id	id of topic
topic	name of topic
topic_type	type of topic
auth_list	list of auth
input_date	date of input
last_update	last updated date

21. mst_subject_type :- This will include subject type of subject.

mst_subject_type	
Field	Information
subject_type_id	id of subject type
topic_id	id of topic from mst_topic
subject_type_name	name of subject type
input_date	date of input
last_update	last updated date

22. mst_supplier :- This will include supplier detail.

mst_supplier	
Field	Information
supplier_id	id of supplier
supplier_name	name of supplier
address	address of supplier
postal_code	postal code of supplier
phone	phone number of supplier
contact	contact of supplier
fax	fax of supplier
account	account of supplier
email	email id of supplier
input_date	date of input
last_update	last updated date

23. stock_take :- This will include stock taking detail of the stock.

stock_take	
Field	Information
stock_take_id	id of stock taken
stock_take_name	name of stock taken
start_date	date and time of start
end-date	date and time of end

init_user	initiation type of user
total_item_stock_taked	total item stock taken
total_item_lost	item lost number
total_item_exists	item exists
total_item_loan	loan of total item
stock_take_user	user of stock taken
is_active	active or inactive
report_file	report generation file

24. stock_take_item :- This will include stock take item detail.

stock_take_item	
Field	Information
stock_take_id	id of stock taken
item_id	id of item taken of stock
item_code	code of item
gmd_name	name of gmd
classification	classification of stock_taken
coll_type_name	collection type name
call_number	call number
location	location name
status	status of stock taken
checked by	checked by user
last_update	last updated time and date

25. visitor_count :- This will include visitor count detail.

visitor_count	
Field	Information
visitor_id	id of visitor
member_id	id of member from members
member_name	name of member
institute	institute of member
ckeekin_date	date of checkin

26. biblio :- This will include material detail of resources. Basically for all material this is master table for their details.

biblio	
Field	Information
biblio_id	unique id of biblio
material_resource_id	id from mst_material_resource_type
gmd_id	gmd_id from mst_gmd
material_sub_id	material sub id from mst_material_sub_type
title	name or title of biblio
subtitle	subtitle of biblio
tags	important tags in biblio
edition	edition of biblio
isbn issn	ISBN OR ISSN number of biblio
publisher_id	id of publisher from mst_publisher
publisher_year	year of publisher
collation	collation of biblio
series_title	series title of biblio
series_no	series number
call_number	call number
language_id	language name from mst_language
source	source of biblio
publish_place_id	place id from mst_place
classification	classification id from mst_classification
review	review of biblio
notes	notes of biblio
image	image of biblio
file_attr	attribute of file
opac_hide	opac is hide or set
promoted	promoted or not promoted
labels	labels of biblio
frequency_id	id of frequency from mst_frequency
spec_detail_info	detail information of biblio
price	price of biblio
price_currency	currency price
city	city name

state	state name
country	country name
vol_no	number of volume
issue_no	number of issue
publication_date	date of publication
duration	duration of publication
company	publication company
actors	actors of publication
age_group	age of group
awards	awards detail
qualification	qualification
college_inst_dept	department of college institute
university	university of college
index_no	index no of biblio
doc_type	type of document or biblio
editorial	editorial of biblio
subject	subject name from mst_subject_type
standard	standard name from mst_standard
input_date	date and time of input
last_update	last updated date and time

27. file :- This will include detail of any file attached with material.

file	
Field	Information
file_id	unique id of file
file_title	title of file
file_name	name of file
file_url	url of file
file_dir	directory of file
mime_type	type of mime
file_desc	description of file
uploader_id	id of user uploaded file
input_date	date and time of input
last_update	last updated date and time

28. biblio_attachment :- This will include biblio attachment detail.

<u>biblio_attachment</u>	
Field	Information
biblio_id	id of biblio from biblio
file_id	id of file from file
access_type	type of access
access_limit	limit of access

29. biblio_author :- This will include detail of authors attached with materials.

<u>biblio_author</u>	
Field	Information
biblio_id	id of biblio from biblio
author_id	id of author from mst_author
level	level of author which kind of author

30.

<u>biblio_standard</u>	
Field	Information
biblio_id	id of biblio from biblio
standard_id	id of author from mst_standard

31. biblio_topic :- This will include topic which is attached with biblio.

biblio_topic	
Field	Information
biblio_id	id of biblio from biblio
topic_id	id of topic from mst_topic
subject_type_id	id of subject type from mst_subject_type
level	level of biblio topic

32. content :- This will include content detail information.

content	
Field	Information
content_id	id of content
content_title	title of content
content_desc	description of content
content_path	path of content
input_date	date and time of input
last_update	last updated date and time

33. fines :- This will include details of fines.

fines	
Field	Information
fines_id	id of fine
fines_date	date of fines
member_id	id of member
debet	debet amount
credit	credit amount
description	description of fines

34. group_access :- This will include user group access detail of modules.

group_access	
Field	Information
group_id	id of group from user_group
module_id	id of module from mst_module
r	read mode set/unset
w	write mode set/unset

35. holiday :- This will include details of holiday.

holiday	
Field	Information
holiday_id	id of holiday
holiday_dayname	holiday day name
holiday_date	date of holiday
description	description of holiday

36. item :- This will include item details of biblio. This is for item record of particular material.

item	
Field	Information
item_id	id of item
biblio_id	id of biblio from biblio
call_number	number of call
coll_type_id	id of collectin type from mst_coll_type
item_code	code of item
inventory_code	code of inventory
received_date	date of receiving
supplier_id	id of supplier from mst_supplier
order_no	no of order
location_id	id of location from mst_location
order_date	date of order
item_status_id	id of item status from mst_item_status

site	any site given
sorce	set or not set
invoice	invoice of item
price	price of item
price currency	currency of price
invoice_date	date of invoice made
input_date	date and time of input
last_update	last updated date and time

37. loan :- This will include loan detail of particular item. This is for item issue,return, renew details.

<u>loan</u>	
Field	Information
<u>loan_id</u>	id of loan
item_code	item code from items
member_id	id of member from members
loan_date	date of loan
due_date	due date of loan
renewed	if loan is renewed set/unset flag
loan_rule_id	id of loan rules from mst_loan_rules
is_lent	set/unset flag
is_return	set/unset flag
return_date	date of return
time	time of return

38. reserve :- This will include reserve detail of particular item.

<u>reserve</u>	
Field	Information
<u>reserve_id</u>	id of reserve
member_id	id of member from members
biblio_id	Id of biblio from biblio
item_code	item code from items

reserve_date	date of reserve
--------------	-----------------

39. budget_records :- This will include records of budget. This table is for budget modules.

budget_records	
Field	Information
record_id	id of budget records
title	Title of particular material.
author	Author of particular material.
qty	Quantity of particular material.
price	Price of particular material.
total	Total of budget.
budget_id	Budget id from mst_budget

40. mst_budget :- This will include budget detail. This is for budget module.

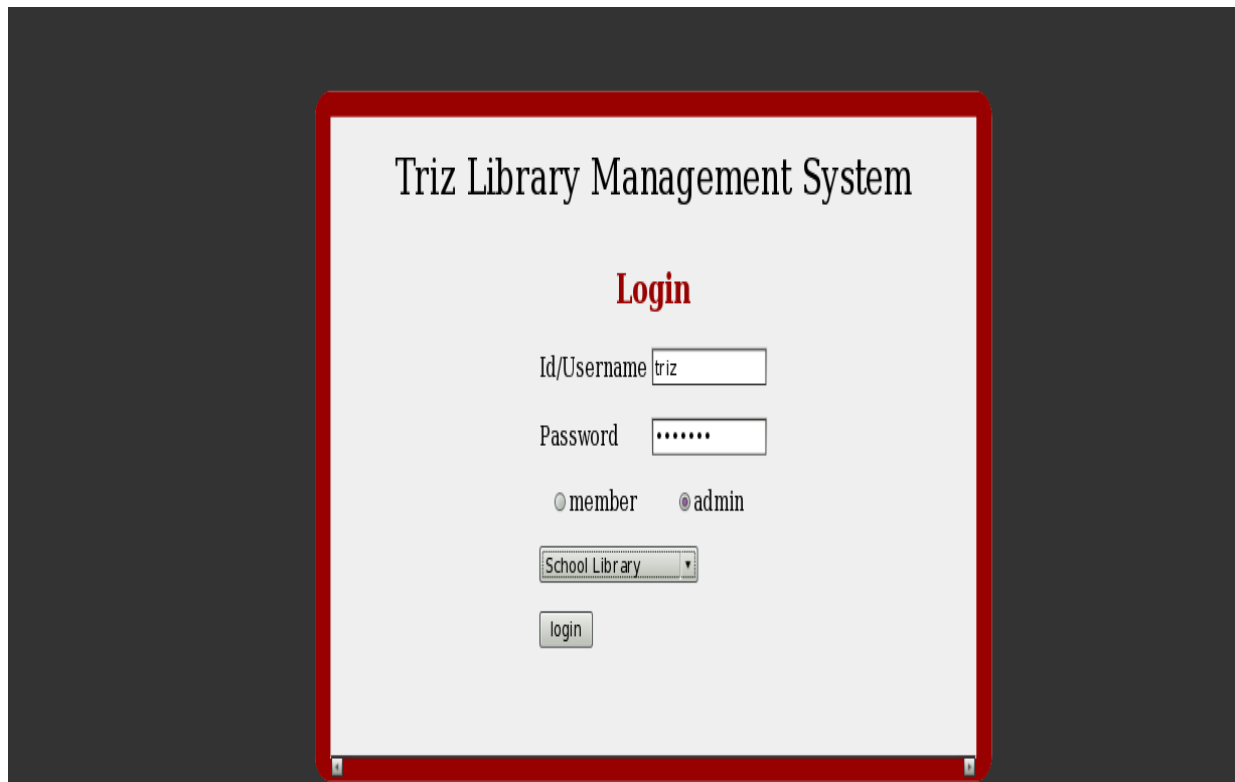

budget_records	
Field	Information
budget_id	id of budget.
expected_budget	Expected Budget
available_budget	Available Budget
total_budget	Total Budget
year	Year of budgeting.

4. Module Description(With Screenshots)

There are basically two types of flows one is for admin and another is for member.

4.1 Admin

1) Login

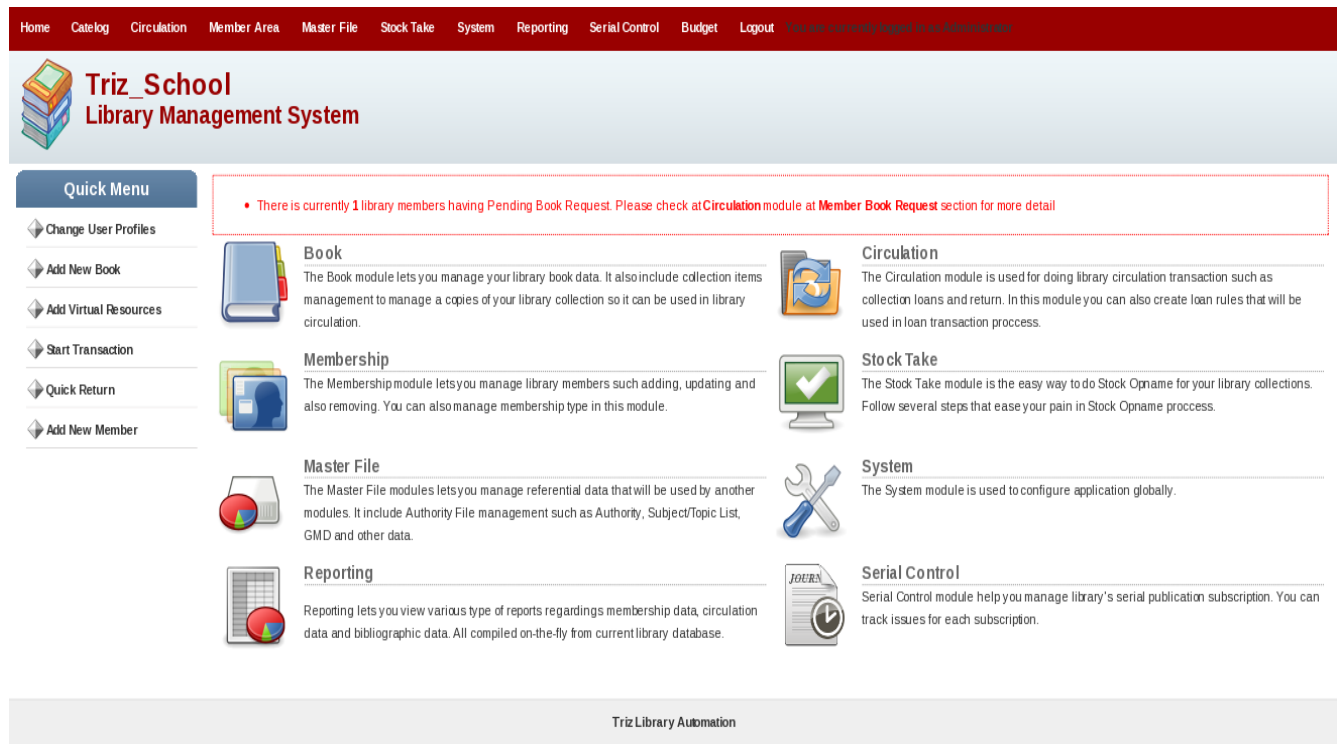

The screenshot shows a web application window titled "Triz Library Management System". Inside the window, the word "Login" is displayed in red. Below it, there are two input fields: "Id/Username" with the text "triz" entered, and "Password" with masked characters ".....". Under the password field, there are two radio buttons labeled "member" and "admin", with the "admin" button selected. Below the radio buttons is a dropdown menu currently showing "School Library". At the bottom of the form is a "login" button. The entire form is enclosed in a red border.

As shown in figure you can see there are two fields Id/Username and Password.

Before clicking on login you need to select which type of user you are whether member or admin. And also you need to select in which library you have to enter school library or engineering library.

Here we are selecting admin and school library and after clicking on login you will see following page.

2. Main Home Page

As shown in figure you will see 3 main parts

[1] Menu Bar on top side which have following menus

1. Home
2. Catalog
3. Circulation
4. Member Area
5. Stock take
6. System
7. Reporting
8. Serial Control

9. Budget
10. Logout

[2] Icon and Content Bar in Middle portion Right Hand side. This will be same as Menu bar but includes icon + description of that menu.

[3] Left hand side you can see Quick Menu which include following Menus

1. Change User Profile
2. Add New Book
3. Add Virtual Resources
4. Start Transaction
5. Quick Return
6. Add New Member

This will be explained in Home Menu.

3. Home Menu

Home Menu will include following links.

1. Change User Profile
2. Add New Book
3. Add Virtual Resources
4. Start Transaction
5. Quick Return
6. Add New Member

[1] Change User Profile

The screenshot displays the Triz_School Library Management System interface. At the top, a red navigation bar contains links: Home, Member Area, Book, Circulation, Membership, Master File, Stock Take, System, Reporting, Serial Control, Budget, and Logout. Below this, a light blue header features the Triz_School logo and the text 'Triz_School Library Management System'. A 'Quick Menu' sidebar on the left lists: Change User Profiles, Add New Book, Add Virtual Resources, Start Transaction, Quick Return, and Add New Member. The main content area has a blue banner with the text: 'Welcome To The Library Automation System, you are currently logged in as Administrator'. Below the banner, a yellow warning icon with an exclamation mark is followed by the text: 'You are going to edit user profile : Administrator', 'Last Update: 2011-08-11 //mfc', and 'Leave Password field blank if you don't want to change the password'. The form contains four input fields: 'Login Username*' (with 'triz' entered), 'Real Name*' (with 'Administrator' entered), 'New Password*', and 'Confirm New Password*'. There are two red 'Update' buttons and one red 'EDIT' button. The footer of the page reads 'Triz Library Automation'.

Triz Library Automation

By entering detail in the form of the Virtual resource detail and then click on the Save button will add the material in the library database. This is for only virtual resources.

[2] Item

The screenshot displays the Triz_School Library Management System interface. The top navigation bar includes links for Home, Catalog, Circulation, Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a user status indicator. The left sidebar contains a menu with Book, Item, Tools, Z3950 Service, Import MRC File, Print, Import, and Export. The main content area is titled 'Item List || Checkout items' and features a search bar with a book icon and a 'Search' button. Below the search bar are 'Delete' and 'Check All' buttons. A table lists the items in the database.

Triz Library Automation

With this menu you can print labels based on the collection of bibliographic data that has been included in Library database. For printing label select the material for which you want to print the label. And then Click on the button Add To Print Queue to add it to the queue of the printer. To print click on the Print Label for selected data then it will show the images of the selected materials.

Item Barcode Printing

The item bar code printing is the same process as the Printing label but it prints the bar codes.

[6] Import

This will be used to import the data to the library system by using database file like csv etc. This option is used to import the data in bulk. The following figure shows the Import data function.

Item Import

The screenshot displays the 'Item Import' interface of the Triz School Library Management System. The top navigation bar includes links for Home, Member Area, Book, Circulation, Membership, Master File, Stock Take, System, Reporting, Serial Control, Budget, and Logout. The 'Book' menu is currently active. The main header area features the system logo and the text 'Triz School Library Management System'. Below this, a welcome message states: 'Welcome To The Library Automation System, you are currently logged in as Administrator'. The left sidebar contains three main sections: 'Book' (with links to Book List, Add New Book, and Add Virtual Resources), 'Items' (with links to Item List and Checkout Items), and 'Tools' (with links to Z3950 Service, Import MRC File, Labels Printing, Item Barcodes Printing, Import Data, Export Data, Item Import, and Item Export). The 'Item Import' option under the 'Tools' section is highlighted. The main content area is titled 'ITEM IMPORT TOOL' and includes a green arrow icon pointing down. It contains a form for importing data from a CSV file. The form fields are: 'File To Import' (with a text input showing '/root/Desktop/All documents' and a 'Browse...' button, and a note 'Maximum 102400 KB'), 'Field Separator*' (with a text input showing ','), 'Field Enclosed With*' (with a text input showing '"'), 'Number of Records To Export (0 for all records)' (with a text input showing '0'), and 'Start From Record' (with a text input showing '1'). There are two red 'Import Now' buttons, one above and one below the form fields. The footer of the page reads 'Triz Library Automation'.

Triz Library Automation

Item Export is also the same as the “Export Data” option but this will take the information of all copies of material present in the library as backup/record.

5. Circulation Menu

Circulation Menu Will display following screen and it will include following submenus.

1. Book Circulation
2. Quick Return
3. Reservation

[1] Book Circulation

The screenshot shows the 'Triz_School Library Management System' interface. The top navigation bar includes links: Home, Catalog, Circulation (highlighted), Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a link to 'Triz Innovation Pvt. Ltd. Home'. The left sidebar contains a menu with 'Book Circulation' (selected), 'Quick Return', and 'Reservation'. The main content area displays a message: 'CIRCULATION - Insert a member ID to start transaction with keyboard or barcode reader'. Below this, there is a 'Member ID' field containing '100900106035' and a 'Start Transaction' button. A dropdown menu is open below the Member ID field, showing the member's name: '<PRANAMI VIMAL DAYALAL>'. The footer of the page reads 'Triz Library Automation'.

This menu is used to check the transactions of the student and also perform several tasks related to material issue, return, renew. As shown in the above picture Enter the User/Member Id and click on the button Start Transaction will open the page as shown in the below picture.

The screenshot shows the 'Triz_School Library Management System' interface after clicking 'Start Transaction'. The top navigation bar and left sidebar are the same. The main content area displays a 'Finish Transaction' section with a table showing member details:

Member Name	PRANAMI VIMAL DAYALAL	Member ID	100900106035
Member Email	ireshpammar@gmail.com	Member Type	Student
Register Date	08-02-2011	Expiry Date	08-02-2012

Below this table, there are four tabs: 'Loans', 'Current Loans' (highlighted), 'Fines', and 'Loan History'. Under the 'Current Loans' tab, there is a 'Loan Report' section with links: '[Print Current Page]' and '[Export To Excel]'. Below the links, there are two buttons: 'Return Selected Data' and 'Renew Selected Data'. A table displays the loan report data:

Return	Extend	Item Code	Title	Loan Date	Due Date
☐	☐	000000000000456	Thermodynamics 1 - Ideal Gases	22-08-2011	24-08-2011

The footer of the page reads 'Triz Library Automation'.

From this menu the admin can change the status like if the material is returned then Admin can change the status by selecting the returned material from the return menu and if Admin want to extends the period then he can click on the material in the extend menu. The rest menu shows the material information like Item Code, Title, Loan Date, And Due Date.

Insert Item Code/Barcode : Loan				
Remove	Item Code	Title	Loan Date	Due Date
	000000000000456	Thermodynamics 1 - Ideal Gases	22-08-2011	24-08-2011

This option is used to grant the loan for the student by entering the material item code or bar code. After Entering the code press on the button “Loan”to give the loan. The above picture shows the Loan option.

Triz Library Automation

Shows the log of all the material member loan form library and any dues and current loan.

[2] Quick Return

The screenshot shows the 'Quick Return' section of the Triz_School Library Management System. The navigation bar at the top includes Home, Catalog, Circulation (selected), Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a link to the user's profile. The left sidebar lists Book Circulation, Quick Return (selected), and Reservation. The main content area features a 'QUICK RETURN - Insert an item ID to return collection with keyboard or barcode reader' instruction, an 'Item ID:' input field, and a red 'Return' button. The footer displays 'Triz Library Automation'.

Quick return is used to return the book without knowing who loan that book. By entering the Id / Bar code of the book and clicking on the button return will return the book.

[3] Reservation

The screenshot shows the 'Reservation' section of the Triz_School Library Management System. The navigation bar and left sidebar are identical to the previous screenshot. The main content area displays a table with reservation details. The footer shows 'Triz Library Automation'.

Title	Total Copies	Available Copies	Member Id	Member Name	Request Date
Life Processes, Class 10 Science Biology	1	1	100900106035	PRANAMI VIMAL DAYALAL	30-11-1999
Thermodynamics 1 - Ideal Gases	2	1	1234567890	Jitesh	14-08-2011

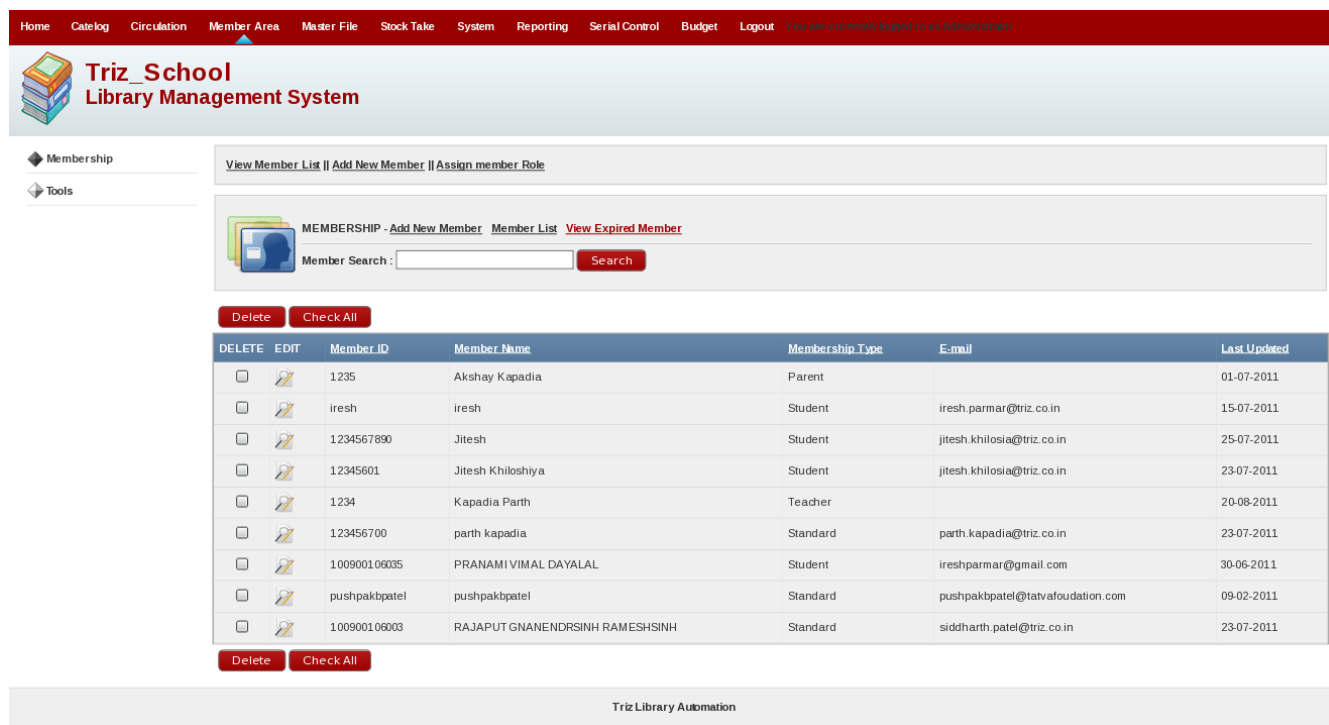

This module will display who has reserved the particular material. It will display title, total copies, available copies, member id, member name, request date.

6. Member Area Menu

Membership Menu Will display following screen and it will include following submenus.

1. Membership
2. Tools

[1] Membership

The screenshot displays the Triz_School Library Management System interface. The top navigation bar includes links for Home, Catalog, Circulation, Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a link to the Triz Innovation Pvt. Ltd. website. The sidebar on the left shows 'Membership' and 'Tools' options. The main content area features a 'MEMBERSHIP' header with links for 'Add New Member', 'Member List', and 'View Expired Member'. Below this is a search bar with a 'Search' button. A table of members is displayed, with columns for Member ID, Member Name, Membership Type, Email, and Last Updated. The table contains 10 rows of member data. At the bottom of the page, there is a footer that reads 'Triz Library Automation'.

DELETE	EDIT	Member_ID	Member_Name	Membership_Type	E-mail	Last_Updated

This is for exporting member data from system.

6. Master File Menu

Master File Menu Will display following screen and it will include following submenus.

1. Add Material Resource Type
2. Add Publisher
3. Add Supplier
4. Add Author
5. Add Subject
6. Add Standard/Class
7. Add Book Rack/Shelf
8. Publishing Place
9. Item Status
10. Book Collection Type

11. Add Label
12. URL Check

[1] Add Material Resource Type

The screenshot displays the 'Triz School Library Management System' interface. The top navigation bar includes links for Home, Catalog, Circulation, Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a user status indicator. The left sidebar contains two main sections: 'Authority Files' with options like Add Material Resource Type, Add Publisher, Add Supplier, Add Author, Add Subject, Add Standard/Class, and Add Book Rack/Shelf; and 'Lookup Files' with options like Publishing Place, Item Status, Book Collection Type, Add Labels, and URL Check. The main content area is titled 'Material Type List || Material Sub sType List' and features a search bar with a 'Search' button. Below the search bar are 'Delete' and 'Check All' buttons. A table lists material resource types with columns for 'DELETE', 'EDIT', 'Material Resource Type', and 'Last Update'. The table contains two entries: 'Physical Library' (updated 23-07-2011) and 'Virtual Library' (updated 19-07-2011). At the bottom of the table are 'Delete' and 'Check All' buttons. The footer of the page reads 'Triz Library Automation'.

DELETE	EDIT	Material Resource Type	Last Update
☐		Physical Library	23-07-2011
☐		Virtual Library	19-07-2011

This will add, edit and delete material resource type.

Triz Library Automation

This will add collection type of book in the system.

[11] Add Label

The screenshot displays the 'Triz_School Library Management System' interface. The top navigation bar includes links: Home, Catalog, Circulation, Member Area, Master File, Stock Take, System, Reporting, Serial Control, Budget, Logout, and a link to the user's profile. The left sidebar contains two main sections: 'Authority Files' with options like Add Material Resource Type, Add Publisher, Add Supplier, Add Author, Add Subject, Add Standard/Class, and Add Book Rack/Shelf; and 'Lookup Files' with options like Publishing Place, Item Status, Book Collection Type, Add Labels, and URL Check. The main content area is titled 'LABEL - Add New Label' and 'Label List'. It features a search bar with a 'Search' button. Below this is a form with three fields: 'Label Name*' with a 'Save' button, 'File Attachment' with a 'Browse...' button and a note 'Maximum 500 KB. All image will be automatically resized. Check label.png', and 'Label Description' with a 'Save' button. The footer of the page reads 'Triz Library Automation'.

This will add label in the system. This will add URL in the system of virtual resources.

[12] URL Check

This will check URL of virtual resources whether it is active or broken. This will help admin to check URL status.

7. Stock Take Menu

Stock Take Menu Will display following screen and it will include following submenus.

1. Stock Take History
2. Current Stock Take
3. Stock Take Report

4. Finish Stock Take
5. Current Lost Item
6. Stock Take Log
7. Resynchronize
8. Upload List

[1] Stock Take History

The screenshot shows the 'Stock Take History' page in the Triz_School Library Management System. The top navigation bar includes links: Home, Catalog, Circulation, Member Area, Master File, Stock Take (active), System, Reporting, Serial Control, Budget, Logout, and a link for the current user. The left sidebar lists options under 'Stock Take': Stock Take History (selected), Current Stock Take, Stock Take Report, Finish Stock Take, Current Lost Item, Stock Take Log, Resynchronize, and Upload List. The main content area has a 'STOCK TAKE' section with a search bar and a 'Search' button. Below this is a table with columns: EDIT, Stock Take Name, Start Date, End Date, and Report.

EDIT	Stock Take Name	Start Date	End Date	Report
	h	2011-01-11 13:09:18		
	h	2011-01-10 15:51:53	2011-01-10 14:21:49	h_report.html

Triz Library Automation

Contains report inventory check has been done. The information in this menu are: Take Stock Name, Start Date, end Date, Report. Report contains links to documents in the form .html that contains reports take stock ever undertaken.

[2] Current Stock Take

The screenshot shows the 'Current Stock Take' page in the Triz_School Library Management System. The top navigation bar and left sidebar are identical to the previous page. The main content area has a 'STOCK TAKE PROCESS - Insert Item Code/Barcode with keyboard or barcode scanner' section. It includes an 'Item Code' input field, a 'Change Status' button, and a 'List stocktakes by:' section with radio buttons for 'Current User Only' and 'All User' (selected). There is also a 'Search' button. Below this is a table with columns: Item Code, Title, Collection Type, Classification, and Status.

Item Code	Title	Collection Type	Classification	Status
102				Exists
301				Exists

Triz Library Automation

The menu is the main menu to do the stock take. This menu is used to

returns the status of library collections that are considered lost by the system, to status exist (otherwise there is a collection). In this menu, item id (barcode number) collection become the main reference for changing the status of collections that are considered lost to exist (there), do this by entering the barcode number on the column collection Item Code.

3) Help On Search

The screenshot displays the 'Triz_School Library Management System' interface. At the top left is a logo of a stack of books. To its right, the text 'Triz_School Library Management System' is displayed. Below this is a red navigation bar with links: Home, Help on Search, My Profile, Book Request, Rescent Views, and My-Eshelf. The main content area shows a login status: 'You are currently Logged on as member: PRANAMIVMAL DAYALAL (reshparmar@gmail.com) Logout'. Below this is a search section with a text input field, buttons for 'Keyword Search' and 'Google Search', a 'SELECT' dropdown menu, and links for 'Advance Search' and 'Search'. The 'Searching' section explains two methods: 'SIMPLE SEARCH' and 'ADVANCED SEARCH'. The footer contains the text 'Triz Library Automation'.

Triz_School
Library Management System

Home Help on Search My Profile Book Request Rescent Views My-Eshelf

You are currently Logged on as member: PRANAMIVMAL DAYALAL (reshparmar@gmail.com) Logout

Keyword Search Google Search SELECT Advance Search Search

Searching

There is 2 method available on searching library catalog. The first one is **SIMPLE SEARCH**, which is the simplest method on searching catalog, you just enter any keyword, either it contained in document titles, authors name or subjects. You can supply more than one keywords in Simple Search method and it will expanding your search results.

ADVANCED SEARCH, lets you define keywords in more specific fields. If you want your keywords only contained in title field, then type your keyword in Title field and the system will scope it search only on **Title** field, not in other fields. Location field lets you narrowing search results by specific location, so only collection that exists in selected location get fetched by system.

Triz Library Automation

This will display Help on Search Page which will instruct user for searching criteria.

4) Book Request

The screenshot displays the Triz_School Library Management System interface. At the top, there is a navigation bar with links: Home, Help on Search, My Profile, Book Request, Rescent Views, and My-Eshelf. Below the navigation bar, a message indicates the user is logged in as PRANAMIVMAL DAYALAL (jreshpamar@gmail.com) with a Logout link. A search section includes a text input field, buttons for Keyword Search, Google Search, and a dropdown menu labeled SELECT, along with links for Advance Search and Search. The 'Your Current Loan' section shows 4 item(s) currently on loan, with a table listing the following data:

Item Code	Title	Loan Date	Due Date
000000000000456	Thermodynamics 1 - Ideal Gases	2011-07-15	2011-07-15
00000000000002		2011-06-21	2011-07-15
00000000000005		2011-06-21	2011-06-28
00000000000006		2011-06-21	2011-06-28

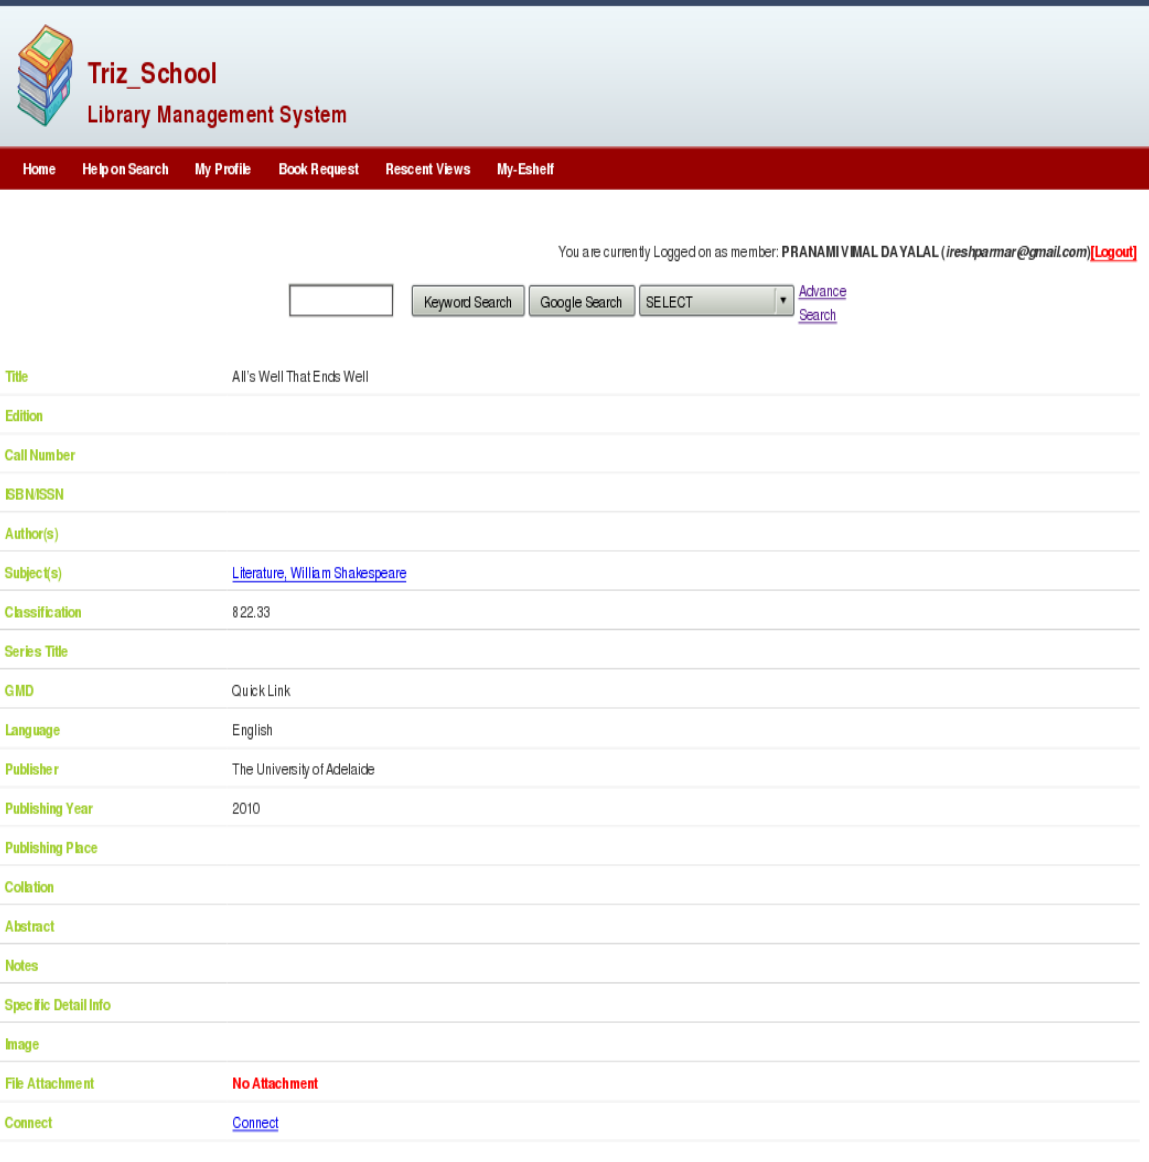

Below the loan table, the 'My Book Request' section shows 'Currently You Have 1 Book Requests' with a table listing the following data:

Delete	Title	Request Date	Confirm Date	Status
☐	Life Processes, Class 10 Science Biology	18-07-2011	30-07-2011	Confirm

A 'Remove Request' button is located below the book request table. The footer of the page reads 'Triz Library Automation'.

This will display loan issued by member logged in. And also display book requested by member. He can remove such request from here.

This is keyword search of home page which will display search result for All's well that ends well keywords result.

11) Home Page Google Search

The screenshot shows the Google Books interface. At the top, there's a navigation bar with links to Web, Images, Videos, Maps, News, Shopping, Gmail, and more. A search bar contains the text "All's Well That Ends Well". Below the search bar, the results for "All's well that ends well" by William Shakespeare are displayed. The book is shown with a "Plain Label Books" cover, a 4-star rating from 86 reviews, and a "Write review" button. A search box for the book is also present. To the left, there are links to "Add to My Library", "Get this book" (with links to Amazon.com, Barnes&Noble.com, Books-A-Million, IndieBound, and Find in a library), and "All sellers". Below these are "Related books" and "Sponsored Links" for "Free Ebooks Download" from ebooksgo.org. The main content area displays the title "ALL'S WELL THAT ENDS WELL" and the author "by William Shakespeare". The page number "1" is visible at the bottom right of the book preview.

This will display google search of keywords enter in text box. Here we have result for All's Well That ends well book. You can read such book here.
